SUMMER

AT

baker & bloom

CULTIVATE CREATIVE LITERACY & CONFIDENCE

HELP YOUR CHILD FIND THEIR PASSION!

Reading & Writing Camps

Summer is the ideal time to nurture the joys of reading and writing in your child. Through a variety of texts, our students will enter new worlds, explore their interests, and fuel their imagination. Our reading and writing camps are designed to help students discover literary elements and discuss in a small group setting.

Our courses will help students develop their skills with reading comprehension, critical thinking, and textual analysis – all while exploring new vocabulary, genres, characters, and literary worlds.

Younger learners will also practice time management and teamwork as they complete daily reading assignments, strengthen their phonemic awareness, complete writing tasks and collaborate with their fellow lovers of literature!

Our courses are perfect for students looking to kindle their passion for reading and writing while building and strengthening their writing and literacy skills to achieve success in their upcoming academic year.

STEM & Math Camps

What is STEM? Science, technology, engineering, and mathematics! In our STEM courses, students will rely on and develop their hard and soft skills to find solutions in problem-based learning.

Students will enjoy daily STEM-based activities, created with that week's theme in mind. Every lesson will be academically sound, but filled with student-centred activities that children of all ages will enjoy.

SUMMER

AT

baker & bloom

CULTIVATE CREATIVE LITERACY & CONFIDENCE

HELP YOUR CHILD FIND THEIR PASSION!

Public Speaking & Debate

We welcome all aspiring young speakers: from the reluctant to the super-keen and able. Our ultimate goal is to help all students develop confidence and strategies to become comfortable with sharing information in the company of others. In our course, students will practice expressing an idea clearly in an entertaining and/or engaging manner.

All of our students will practice sharing key information, and they will strengthen their creative and critical thinking skills to problem solve.

Academic Coaching

Academic Coaching is the one-on-one process of helping a student examine academic concerns and perceived barriers to success.

Our Baker & Bloom Coaches provide individualized support according to your timeline, they will assess the student's strengths and needs, and devise a personalized plan of action in the following areas: exam preparation, specific learning needs, time management, procrastination, and more!

Form a Private Class!

Book one-on-one coaching sessions or form your own group of 3-6 students for a tailor-made class that suits your interests, schedule, and learning needs. Private sessions can cover any of the subjects or topics derived from any of our course offerings. Additionally, our skilled teachers can create a course based on your child's interests. Email or WhatsApp us to start!

SUMMER *discount*

\$300

EARLY BIRD DISCOUNT

- The Early Bird Discount is applicable to registrations and payments made before 15 May 2026.

\$300

MULTI-COURSE DISCOUNT

- The Multi-Course Discount is applicable to students who enroll in two or more summer courses at Baker and Bloom.
- The multi-course discount is contingent upon the same student enrolling in multiple courses. If the student ends up taking only one course, this discount will be forfeited.

\$100

SOCIAL MEDIA DISCOUNT

- The Social Media Discount is applicable to individuals who follow Baker and Bloom on Instagram and Facebook.
- To claim the discount, the individual must send a screenshot to our whatsapp 4402 3419 as proof of following Baker and Bloom Education Center's Instagram account (@bakerandbloomedu) and Facebook page (Baker and bloom education center).

\$200

REFERRAL REWARDS

- The referral credit is only applicable to students who refer friend(s) to our Summer Program 2026.
- The referral credit is only valid if the referred friend is a new student who has never enrolled in courses at Baker and Bloom. The referred friend must have successfully completed and paid for a Summer Course.
- For every friend you refer, you will receive a credit of \$200, which will be applied to your child's next tuition invoice when they enroll in a course or program at Baker and Bloom.
- all credits must be used by the end of 2026.

Ages 3-5 Kindergarten

SUMMER 2026

Caldecott Award Book Club (ENG)

***For K1-2 students only.**

The Caldecott Award annually recognizes the most distinguished, beautifully illustrated, American picture books. In the Book Club, students will use these award-winning works of literature to further develop their burgeoning language, comprehension and creativity skills, while building a love for literature.

Fun Fundamentals (ENG)

***For K2-3 students only.**

Fun Fundamentals is a personalized review and extension of the groundwork skills necessary to be a successful reader and writer in kindergarten and the early primary years.

Each child will have a tailored set of activities designed to reinforce and strengthen key skills in decoding, comprehension, and written composition. This would be a great class if you are looking to help your child develop in all areas, including the more "traditional" academic courses.

Storytelling and Presentation (ENG)

***For K2-3 students only.**

In this Storytelling and Presentation Skills course, students will build speaking confidence by giving oral presentations and telling their own stories. They will have a chance to fine tune their pronunciation skills with exercises in phonological awareness. Through picture book read-alouds, students will be encouraged to sequence a story, predict what will happen, to comment, and to connect between the story and their personal lives.

This group course is excellent for students who will be preparing for various school interviews.

About Our Courses

Creative Writing Program

The full writing process from start to finish. Students will have the chance to develop an original idea, write in their specific style, and edit their work to create a unique project to bring home.

inspirED Reader & Writer Program

Students will have a holistic opportunity to experience all the elements of Language Arts including: grammar, spelling, reading comprehension, and the writing process.

inspirED STEM Program

For all hands-on learners! Our STEM programs were made for you. Take a deep-dive into exciting and awe-inspiring topics that will spark creativity.

Public Speaking

Improve communication skills and confidence! Public speaking is an essential skill that students will be required to use for the rest of their lives. Summer is the perfect time to solidify their abilities.

The Alphabet Kitchen: Cooking Up Letter Sounds

(ENG)

***For K1-2 students only.**

Grab your aprons and your ABC's! In The Alphabet Kitchen, little chefs don't just cook—they master the recipe for letters and sounds! From "Crunchy Cucumber Crowns" to "Super Strawberry Smoothies," students will explore the alphabet through their five senses. By following simple "visual recipes," children will learn that letters make sounds, sounds make words, and words can make something delicious!

Magical Creatures and Language Skills

(ENG)

***For K2-3 students only.**

Students will enter into the realm of extraordinary creatures. Through creative storytelling activities, uncover the magic mysteries surrounding dragons, unicorns, fairies, and more. Students will delve into enchanting tales, developing critical thinking and comprehension skills, while discovering the unique characteristics and abilities of each creature. Students will engage in critical brainstorming process to create their own mythical creature and engage in interactive writing activities that foster communication, and imaginative thinking.

Dr. Seuss on the Loose: A Little Reader's Guide to Rhyme and Phonics

(ENG)

***For K2-3 students only.**

Step into the whimsical world of Dr. Seuss, where words don't just sit on a page—they hop, pop, and play! From the rhythm and rhyme in The Cat in the Hat to the tongue-twisters in Fox in Socks, students will explore the "music" of language. Through hands-on activities, silly storytelling, and daily "word-play," little readers will build the confidence to tackle phonemes, master rhymes, and discover that a book is the greatest adventure of all.

Ages 3-5 Kindergarten

Creating Storybooks

Children are natural storytellers with vivid imaginations awaiting written expression! In this course, students will craft their personal narrative in the form of an illustrated storybook that can be treasured and shared with others. They will also be guided through interactive and creative tasks to help them create the book.

At the end of this course, student will understand basic story elements. They will have written a story that follows the structure that they can bring home and share with family and friends. All students will walk through the editing process to create a final piece that they are proud of.

Community Stories, Everyday Heroes!

(ENG) 

Explore the "superpowers" of the people who make our world work, from Hong Kong's unsung local helpers to global environmental and technological innovators. Through daily readings and creative writing projects, your child will analyze the qualities of service while drafting letters, expanding their creativity and design to become their own agents of change for their community and the world around them.

Word Wizards: Vocab Booster

(ENG) 

Does your child struggle to express their thoughts? Do they often resort to the same few words? This course will introduce them a whole new world of vocabulary, and equip them with the tools they need to communicate effectively. At the end of the course, students will produce a booklet full of new words, including definitions and mini-stories which illustrate them.

Finding Your Voice

Considered to be one of the most fundamental and widely applicable skills, public speaking can be honed through practice, guidance, and inspiration – what we hope to provide. This course helps students become more confident when speaking in public and in interviews. Students will role play while improving their technique in speaking. They will also analyze, produce, and perform a range of text types.

(ENG)

Cities of the Future (A Writing Workshop)

(ENG)

Become a junior scientist! Explore a diverse array of scientific concepts, including biology, chemistry, and physics, and learn how to plan, prepare, and conduct experiments. Students in this course will have their curiosity ignited and will gain valuable insights on the workings and secrets of the natural world, all while understanding how to see the world through the eye of a scientist.

Students will explore beginner biology, chemistry, and physics while greatly improving their scientific questioning and approach. They will learn how to cultivate curiosity and ask meaningful questions about the world around them. Students will develop observational and analytical skills through practical experiments.

The Power of Description

(ENG)

Descriptive skills are essential when it comes to imbuing life into our stories. Children are naturally observant and in this course, we will use their observations through the five senses to craft richer stories. The children will work on their word choice and sentence fluency and will walk out with a booklet of powerful descriptions!

In this course, students will gain a grasp on the figurative language basics, and practice using sensory language to create visuals with words. Students will be required to *show* not tell, and will be encouraged to engage in grade-level appropriate descriptive writing.

Painting with Words

If a picture tells a thousand words, can a thousand words paint a picture? In this course, students will study details in mentor texts and illustrations to bring out their imaginations and enrich their writing with colourful vocabulary and author's craft techniques.

Students will gain a grasp on figurative language basics. It is a requirement to use sensory language to create visuals with words. This is a fantastic introduction for students who struggle with showing instead of telling.

Stop, Motion, Action!

Create Your Own Animation (STEM)

Ever wondered what it would be like to be an animator? In this creative 5-day class, students will become storytellers and directors, and bring their ideas to life through the magic of stop-motion animation. Students will learn about the history of animations, how to storyboard, create characters and sets, and how to film their very own animations. Through hands-on activities and discussions, students will learn how to craft and film, as well as direct and edit a completed animation, ready to showcase at our end-of-course film festival!

Travel Journalling: Writing Our Adventures (ENG)

Summer is a time for lots of travelling - and what better way to remember your vacation than through travel journalling! This course is perfect for students who want to express themselves creatively. Students will be encouraged to recount short memoirs of their travels in a "scrap-booking" style. Whether you're heading on a family trip or enjoying a staycation, this course will inspire students to get involved in their travels with writing and arts in a fun and imaginative way. At the end, students will have a travel journal ready to record their latest adventures with!

Mystery Stories (ENG)

In this bite-sized edition of our regular term course, students will put on their detective hats to read, solve, and write their own mystery stories. Students will build content vocabulary, put together evidence to find out "whodunnit?", and practise critical thinking skills.

Students will break down the mystery genre elements and vocabulary. They will practice the basic story structure, and learn how to create suspense in their writing. The class will engage in a group brainstorm, and work on the writing and editing process together.

The Writer's Quest (A Hero's Journey)

(ENG) 

A world of magical writing awaits! This course will offer a thrilling exploration of the fantasy and adventure genre! Students will learn about the "Hero's Journey" narrative structure and create captivating characters, wonderful worlds, and amazing adventures, culminating in a final fantasy-themed writing piece.

Public Speaking: Speak as an Expert

(ENG) 

Have you ever thought about being a TEDx speaker? Here is your chance to stand up and share your knowledge. In this course, students will do research on a topic of their choosing, write a speech, and learn to deliver it like an expert. At the end of the course, they will be able to deliver their own informative speech in front of an audience.

"Thank you so much - [my child] is so PROUD to be reading and writing. His budding literacy has further bolstered his confidence and happiness.

I see him incorporating writing into his play (drawing/painting/etc). It was great to see his work in the booklets he brought home today. THANK YOU!"

"Thank you for continuing to encourage my daughter's interest in writing, and to help her refine her critical thinking skills!"

Dear Future Me (Writing Stories of Self and Society) (ENG)

Master the art of the personal narrative, learning to articulate their unique identities through the lens of their contributions to a wider society. By deconstructing the elements of a compelling personal statement. Cultivate a distinct authorial voice that balances self-reflection with an awareness of the world around them. Refine the ability to translate lived experiences into a personalized story by building a portfolio of stories that define who they are and who they aspire to become.

Getting into HKIS & CIS (iDAT Bootcamp) (ENG)

Many international schools in Hong Kong now use the iDAT as part of their admissions process. Our small-group Bootcamp introduces students to the test's key areas (English, Mathematics, Global Knowledge, and Character), basic essentials, and strategies to build the confidence needed to perform their best.

Digital Citizens: Mastering Media Literacy (ENG)

In an increasingly digital world, understanding how to navigate and critically evaluate online content is essential. This course will provide students with a chance to develop their digital understanding. With hands-on activities, students will analyse information, understand how to safely use AI, and discern credible sources from misinformation. In the end, students will have a final media project and an understanding of how better to navigate the digital world.

A Taste for Words (Mastering Descriptive Writing)

(ENG) 

Fast forward to the end of secondary school. What will your child remember about primary school? In this course, students will write personal narratives reflecting on their current lives, craft expository pieces on contemporary issues or topics, and make predictions about their future. Through this course, young writers will develop their narrative and expository writing skills while reflecting on their personal experiences and the world around them. At the end, students will take home pieces they can keep tucked away for safekeeping until they're ready to head off to university!

Junior Debate: World Scholars Cup

(ENG) 

Creative Writing

(ENG) 

This course structured as a writer's workshop, where students will have ample time to develop their storytelling skills in a supportive environment. Each lesson focuses on a different aspect of writing, allowing students to explore various genres, from short stories to poetry and screenwriting. Students will enhance their skills in brainstorming, outlining, drafting, and revising, while also mastering essential techniques like vivid language and character creation. With opportunities for peer and teacher feedback, students will refine their work and cultivate their unique voice, making this workshop a perfect space for aspiring writers.

Ages 10-11
Rising Grades 5-6
SUMMER 2026

About Our Courses

Academic Writing (ENG)

The course focuses on the academic skills and basic elements of academic writing. The aim of this course is to increase students' agency as writers by acquiring both the theoretical knowledge and practical skills necessary to produce texts for interdisciplinary academic discourses.

This is a writing workshop designed to reinforce essay composition skills and introduce students to the practice of writing for academic purposes. It will prepare students for work in higher level English courses. The course will place equal or greater emphasis on macro-level composition skills such as: essay structure, paragraph structure, coherence, unity; and micro-level skills such as: sentence structure, grammar, vocabulary, spelling and mechanics.

Admissions : Essay Bootcamp (ENG)

This course guides students through the process of crafting compelling essays for US boarding school applications. Students will learn how to choose their topics, communicate their identities, and work with questions commonly found on applications.

"My son enjoys attending classes at Baker & Bloom and he comes home sharing with us what he did in class.

He is happy with the teacher and the teacher always gives him an opportunity to answer questions and be part of the group."
